WEDNESDAY .... NOVEMBER 10, 1886.

The Results-States. We showed vesterday that in the four States of Illinois. Indiana, Ohio, and Virginis, the Democrats lost more congressmen in the recent elections than they lost in the whole United States. This, of course, was but saying in other words that in thirtyfour States the Democrats gained more than they lost in the other four. After all the talk about unexpected and unexplainable results, the fact just mentioned seems to be

itself something that needs explanation. Now as to States. Mr. CLEVELAND received in 1884 the votes of 20 States; Mr BLAINE the votes of 18 States. If New York had voted for BLAINE, he would have been elected without receiving the votes of a majority of the States. Each candi date would in that case have carried 19 States. But in 1884 Mr. CLEVELAND re-ceived in New York a plurality of only 1,047. He did not secure a majority of the votes. Last week, in that State, Judge PECKHAM, Democrat, was elected by a majority of thousands. There is nothing discouraging in the result in New York The Democratic strength is concentrated too much in New York city and Brooklyn to allow the Democrats to carry the Legislature, but they can carry the State, every

If the election of President of the United States shall be thrown in 1888 into the House of Representatives because the Prohibitionists, the Labor Reformers, or say other new party shall have received the votes of one or more States, the Democrats will not in that body have the power to elect their candidate. In such an election each State casts one vote and the votes of a elect. Last week the Democrats elected a majority of the congressmen in eighteen States and the Republicans elected a majority in eighteen States. In Rhode Island there was a failure to elect one congressman, but the Democratic nominee received a piurality. In New Hampshire the Democrats elected one member and the Republicans the other. One of these States will not be able to vote in the House of Representatives. So no candidate could get a majority of the States.

But the elections of last week cannot be considered as pointing to Democratic defeat in 1888 nor as portending that the next election will be thrown into the House of Representatives. On the popular vote the Democrats carried New York last week in York, 6th October, 1886." addition to the eighteen States in which they elected a majority of the congressmen. lectoral vote is so large that with it to rely upon, the Democrats could afford to lose one or two of the small States among the eighteen bereinbefore referred to, and still elect their nominee for President of the

Some persons set down North Carolina as doubtful State, and as baying been carried by the Republicans last week, when the fact is that the Democrats elected a large majority of the congressional delega. tion and elected the Supreme Judges, who were voted for all over the State, by a mafority reported to be between five and ten thousand. North Carolina is as safe for the Democrats in 1888 as is any other State.

And then Virginia is not in the eighteen States first above referred to. She did not last week place a majority of Democrats upon her congressional delegation. And yet Virginia is another State that may be set down as safe for the Democratic nominee in 1888. She voted wrong two or three times in State elections, but she has never failed in her duty in any presidential election held since the war, except in 1872, when there was no real Democrat in the field for President, and when, by the way, the Republican victory in Virginia was looked upon with very much the same sort of feeling with which the Republican victory in this State last week has been regarded. She voted for TILDES in 1876 and for HANCOCK in 1880, though MAHONE had carried the State in 1879, the year before, and again in 1881, the year after, the presidential election. She also voted for CLEVE LAND in 1884-two years after six Republican congressmen were returned from this State. Set Virginia down as certain to cast her vote for the Democratic nomince in

It thus appears that if we take the Union by congressional districts, the Democrats lications for young people. It is approdidates in a majority of those districts. If we take it by electoral districts and add in each State the senatorial electors to those still "hold the fort." In any aspect of the case, the sky is bright and the future full of hope for the unterrified Democracy.

Note from Mr. Cooper.

To the Editor of the Dispatch : You are kind enough to give me a free advertisement in your issue of Sunday. Permit me to state that I do not hire people to tender coupons any more than you hire people to buy the Dispatch. If I could manage in some malicious way to prevent any one in Virginia purchasing the Dispatch and the people over the country and persuading by going over the country and persuading people that to touch it, or to have in their people that to touch it, or to have in their houses, would give them some terrible infectious disease, and you, finding your means of livelihood gone, were to advertise that if any one caught the said disease you would pay their doctor's bill and see them through their trouble, I should not say you were "hiring" people to buy the Dispatch.

I have the solemn contract of the State of I have the solemn contract of the State of Virginia to accept its coupons in the payment of taxes. The State refuses to observe this. She has done more: She has made many people believe that it is illegal to use ceupons. My income is thus swept away. All do is to promise people that if they use the coupons and are illegally molested I will see them through their trouble.

Let the public judge. The reader will see that Mr. Coopen knows it is the State that he is dealing with, and not "trespassers."

It seems that the Democrats have one majority in the Indiana Legislature, but that the Republicans hope to tie that body, if not to secure a United States senator, by showing that one of the members-elect is ineligible. A telegram in the New York Times from Indianapolis claims that inasmuch as the Democratic candidate was ineligible and the Republican candidate was refeated by only 21 majority, the latter wit be ested. But this would be as bad as scating an incligable candidate. The seend man is not elected because the onfirst on the list is ineligible. The second asn has actually beca rejected by the peo-He. A new election is the remedy -not the eating of a defeated candidate. But each house of the General Assembly

of Indiana and all other States is organized by the men who get the certificates of election. Each house, too, is sole judge of the elections, quatifications, and returns of its own members. In other words, the election officers have nothing to do with questions of eligibility. These all belong to the house to which the man is elected. The

The New York Tribune's charge that Mr. CARLISLE was fraudulently counted in is discreditable to that journal and will in no wise damage him. Mr. CARLISLE would not accept a seat in the House of Representatives thus tendered to him. There is not a Republican in the present Congress who will not feel mortified that a leading organ of the Republican party should have brought so unfounded a charge against Mr. CARLISLE. It will belp to reclect him

The Majority for the State Ticket-The Legislative Outlook-Colored People's Fair-Fires.

(Special telegram to the Dispatch.)

RALEIGH, N. C., November 9—The joy of the Democrats over the election of the State ticket is exceedingly great—following, as it does, upon the utmost depression. This depression reached its lowest point Saturday, and, as has been stated, hardly one Democratin ten thousand had hopes of the election of his ticket. Judge Philips was absolutely sure of defeat, and was first observed by my news of a Democratic victory west of the mountain on this ticket. There is a feeling of the thinking over the result. State-Treasurer Bain told me this itermoon that the Democratic wail the mountain on the state. There is a feeling of the state and he thought would be—18.000, whereas up to Saturday all the returns were unfavorable to the Democrats. Now the wind has changed and the kies grow brighter hourly. This correspondent has endeavored day by day to present matters as they really looked. As to the legislative ticket, York has been elected to the Senate from Wilkes county after all, defeating Barber. York was Governor Scales's competitor in the gubernatorial race two years ago. Congress.

Official returns from the First district give Latham (Democrat) for Congress 2,735: from the Fourth. Nichols (Republican), 1,541; and from the Fifth, Brower (Republican), 1,541; and from the Fifth, Brower (Republican), 1,541; and from the Fifth, Brower (Republican), 1,560. The latter is less than was expected. The vote on the judicial ticket, when added, will show only about half the last vote by either party. Its lightness is remarkable. The figuring-down on this vote so far is on fifty counties from which full returns are in.

RELIEF! Forty Years a Sufferer from CATARRH.

WONDERFUL TO RELATE.

"FOR FORTY YEARS! have been a victim to CATABRH—three fourths of the time a sufferer from EXCRUCIATINE PAINS ACROSS MY FOREHEAD AND MY NOSTRILE. The discharges were so oftensive that I hesitate to mention it, except for the good it may do some other sufferer. I have spent a young fortune from my earning during my forty years of suffering to obtain relief from the doctors. I have tried patent medicines—every one I could (earn of-from the our corners of the earn), with no relief, and AT LAST (fifty seven years of age) have met with a zemedy that has cared meen-tirely—made me a new man. I weighted 128 pounds and now weigh 146. I used thirteen bottles of the medicine, and the only regret I have is that, being in the humble waits of life, I may not have influence to prevail on all Catarrh sufferers to use what has any doctors.

Guinn's Pioneer Blood Renewer. "HENRY CHEVES, No. 287 Becond street, Macon, Ga "Mr. Henry Cheves, the writer of the above, formerly of Crawford county, now of Ma on, Ga., merits the confidence of all interested in Catarrh. "W. A. HUFF, Ex-Mayor of Macon."

I am sixty-eight years of age, and regard GUINN'S PIONEER a fine tonic for the feeble. By its use my strength has been restored and my weight increased ten pounds A. F. G. CAMPBELL, Cotton-Gin Maker.

A Crippled Confederate Nays:

I only weighed 128 pounds when I commenced GUINN'S PIONEER, and now weigh 147 pounds. I could hardly walk with a stick to support me, and can now wait

long distances without help. Its benefit to me is beyond calculation.

D. RUFUS BOSTICK, Cotton-Buyer, Macon, Ga. Mr. A. H. Bramblett, Hardware Merchant of Forsyth, Ga., Writes; It acted like a charm on my general health. I consider it a fine more than I have for twenty-five years. Respectfully, A. H. F A. H. BRAMBLETT.

My wife has regained her strength and increased ten pounds in weight. We recommend GUINN'S PIONEER as the best tonic. GUINN'S PIONEER BLOOD RENEWER has been used for years with unprece dented success. It is entirely vegetable and does the system no narm. It improves the appetite, digestion, and blood-making, stimulating, invigorating, and toning up a tne functions and tissues of the system, and thus becomes the great blood-renewe

Dr. Moore Often Prescribes It With Satisfactory Results. Macon Medicine Company: I take pleasure in giving my opinion in regard to the Blood Purifier prepared by you. I have prescribed it often in obstinate skin dis-

eases, especially of Syphillitic origin, and can say that its use has proved entirely JOHN L. MOORE, M. D., Grima, Ga, Wonderful Cures of Blood and Skin Diseases. Mocon Medicine Company: You ask me what I think of GUINN'S PIONEER ELOOD RENEWER as a Blood Medicine. I will state that I have seen some very wonderful cures from the effects of it in skin diseases and blood diseases. It is with

out a doubt the BEST BLOOD MEDICINE before the country. JAMES A. BOSE, Williamsville, Pike county,
